

## Coral Springs Surgical Center:

Coral Springs Surgical Center is a more convenient, cost-effective and flexible alternative to hospital based surgery for both surgeons and their patients. We deliver friendly, highly responsive and attentive service in a more comfortable environment. We use only the latest, state-of-the-art equipment and instrumentation in all of our OR and recovery suites. We are physician and patient friendly, with fast and efficient turn-around times. We accept most major insurance and we offer block scheduling time for surgeons. We will also be happy to assist you with all of your credentialing needs. The facility has been licensed in the State of Florida and is certified by Medicare.

## Physician Investment Opportunities:

Coral Springs Surgical Center is a free-standing, partnership owned, multi-specialty ambulatory surgery center located on the second floor of a four story medical office building. The partnership consists of 23 Limited Partners and a nationally known management company, National Surgical Care (NSC). With continued advancements in facility operations, patient care and organizational management techniques, our center is well positioned for future growth and is looking to add new physician partners to our team.
